PROFILE

Software Engineering graduate and Full-Stack Web Developer with hands-on experience building practical web applications using Laravel, PHP, JavaScript, React, PostgreSQL and MySQL. Experienced with REST APIs, role-based authentication, dashboards, inventory workflows and responsive web interfaces. Strong foundation in technical support, troubleshooting and problem solving.

WORK EXPERIENCE

Afrologic Cameroun 2022 - 2023
IT Service Provider

- Supported software installation, configuration and troubleshooting for client systems.
- Assisted with setting up development and working environments, including operating systems and software tools.
- Diagnosed software and connectivity issues and helped maintain reliable user workstations.
- Gained practical experience working with software systems, technical problem-solving and client support.

GazExpress Cameroon 2026 — In Development
Full-Stack Developer

- Building an LPG ordering and delivery platform for the Cameroonian market using Laravel and PostgreSQL.
- Implemented role-based authentication for customers, vendors, riders and administrators.
- Developed vendor approval, gas catalogue and inventory-management workflows.

Laboratoire L'Odyssée 2025
Web Developer

- Developed a responsive medical laboratory website for service presentation and patient communication.
- Built user-friendly interfaces with HTML, CSS and JavaScript.
- Supported appointment and contact workflows.

EDUCATION

Bachelor of Technology in Software Engineering 2023 - 2024
University of Bamenda, Cameroon

CERTIFICATIONS
